

# N21 CASTLEISLAND BYPASS

Newsletter – January/February 2010

## The Team:

**Kerry NRDO**  
National Road Design Office  
Oifig Deartha um Bóithre Náisiúnta Chiarraí

## Road Works

The roadworks on the bypass are now underway again with the winter weather diminishing the progress in recent months. The preparation works on the mainline are underway for the remainder of the earthmoving, which is hoped to be completed in the coming months. The Farranfore Road Roundabout as shown in the picture below was also opened to traffic prior to Christmas.

• • •

## Structures

Works on the Structures are in their final stages.

As seen in the photograph, the Pound Road (L-2017) Bridge is now complete and was opened to traffic for Christmas.

The main structure over the River Maine is also nearing its completion.

All accommodation underpasses have been installed and the stream culverts on site are in their final stages.

The new underpass on the Golf Course Road is nearing completion as shown above.

**bam ...safety 1st...**

## Safety

All of our works are well planned in advance to minimise the effect it has on the public.

We have a detailed Traffic Management Plan in place at the Tralee Road Roundabout and also at the Farranfore Road Roundabout.

This is to ensure the Safety and Health of both the staff and the public. Every employee of BAM Civil has the responsibility to follow safe work practices and to have a genuine concern for the safety and health of all persons involved.

We also ensure that the site is secured at all times.

## Upcoming Traffic Management

In early March, the remainder of the Old Tralee Road (L-6541) Underpass will be completed.

The road leading to the Golf Course is under construction and a certain amount of Traffic Management measures will be necessary.

If you have any queries, please contact us in the Site Offices just off the Farranfore Road
