Structures

Works on all Structures are all but complete.

Waterproofing works are also now complete to all but one structure. Pre-cast works will also be complete with the installation of the parapets to one structure.

THE N21 CASTLEISLAND BYPASS

Construction well under way...

Roadworks

The Road Works are moving along very well with Clause 804 now being laid to the Mainline and with CBM to be starting in the coming weeks. Mainline Drainage & Ducting is at an advanced stage and going very well. Also the installation of crash barriers through the site is to begin in the coming weeks.

Safety

All of our works are well planned in advance to minimise the effect it has on the public.

...safety 1st...

Upcoming Traffic Management

In the coming weeks we will be completing works on the Farranfore Road Roundabout. Works on the Limerick tie-in have commenced to the Roundabout and the actual tie-in to the existing Castleisland to Limerick Rd

If you have any queries, please contact us in the Site Offices just off the Farranfore Road
