MEMORANDUM

TO: Ms. Jean Foley, AO Water Services

FROM: Mr. Paul Stack, Senior Engineer, Planning Department

DATE: 5th June 2012

RE: Proposed Burial Ground at Cromane, Co. Kerry

I refer to your memo of the 28th May 2012 in relation to the above matter. The proposed development is classified as a sub-threshold development per Schedule 5 of the (Planning & Development) Regulations 2001. The characteristics of the proposed development are considered unlikely to have significant effects on the environment and no potentially significant impacts are envisaged from the characteristics of the proposed development as outlined in the EIA and AA Screening Reports.

It is my opinion, therefore, that under Article 120 (1) to (7) and the criteria set out in Schedule 7 of the Planning & Development Regulations 2001 that the above proposed does not require the preparation of an E.I.S.

I confirm that the proposed development is a class of development prescribed for the purposes of Section 179 of the Planning & Development Act 2000 and must comply with the requirements in respect of specified developments by a Local Authority under Part 8 of the Planning & Development Regulations 2001.

Paul Stack
Senior Engineer – Planning Management
Planning Department
