MEMORANDUM

Our Ref: PS /NoC

DATE: 14th September 2009

TO: Mr. Garry Barry A.O., Water Services Department

FROM: Mr. Paul Stack, Senior Engineer, Planning Department

RE: Kerry Central Regional Water Supply Scheme
Upgrade and Expansion of Lough Guitane Water Treatment Works
Part 8 Planning

I refer to your memo of the 28th August 2009 in relation to the above matter. The proposed development is classified as a sub-threshold development per Schedule 5 of the (Planning & Development) Regulations 2001. The characteristics of the proposed development are considered unlikely to have significant effects on the environment, and no potentially significant impacts are envisaged from the characteristics of the proposed development. It is my opinion, therefore, that under Article 120 (1) to (7) and the criteria set out in Schedule 7 of the Planning & Development Regulations 2001 that the above proposed does not require the preparation of an E.I.S. and that the Environmental Report satisfies the Appropriate Assessment requirement under Article 6 of the Habitats Directive.

I confirm that the proposed development is a class of development prescribed for the purposes of Section 179 of the Planning & Development Act 2000 and must comply with the requirements in respect of specified developments by a Local Authority under Part 8 of the Planning & Development Regulations 2001.

Paul Stack
Senior Engineer
Planning Department
