MEMORANDUM

DATE: 5th September 2008

TO: Mr. Paul Cremin A/S.E.E., Water Services (Capital Unit)

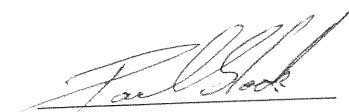

FROM: Mr. Paul Stack, S.E., Planning Department

RE: Sheheree Reservoir

Further to documentation received in relation to the above, I have now checked the drawings and inspected the site of the proposed development along with identifying any designations or restrictions associated with the site in question or the development proposed and it is my opinion that the proposal does not require an EIS to be prepared as it will not have a significant affect on the Environment.

I note in particular the archaeology report on the site which in conclusion states that "the reservoir site requires no further archaeological mitigation."

Yours sincerely

Paul Stack,
S.E. Planning
